1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, and 7-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by DePrey et al (cited by Applicant; US 4,742,795). DePrey et al disclose the claimed structure a pleasure boat including a cockpit 20, a swimstep 28 and a transom 39 separating the cockpit from the swimstep characterized in that said transom is mounted to be mobile between a rear position in which the cockpit has a maximum area and the swimstep has a minimum area and a forward position in which the cockpit has a minimum area and the swimstep has a maximum area.

3. Claims 3-6, 10 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Slikkers et al show a swim platform.
